GPSIA Applauds House Subcommittee for Favorably Considering the *Precision Agriculture Connectivity Act of 2018*

WASHINGTON – The GPS Innovation Alliance (GPSIA) issued the following statement upon voice vote by the U.S. House Energy and Commerce Subcommittee on Communications and Technology of H.R. 4881, the [*Precision Agriculture Connectivity Act of 2018*](#).

“GPSIA applauds the subcommittee for adopting legislation that recognizes the critical role of precision agriculture,” said Executive Director J. David Grossman. “Precision agriculture, including the integration of GPS technology, is enabling farmers to more efficiently manage their crops, which in turn saves time, money and reduces unnecessary waste of critical resources. We thank Representatives Latta and Loeb sack for their leadership in championing H.R. 4881 and look forward to seeing the full Energy and Commerce Committee favorably consider the legislation.”

The GPS Innovation Alliance was founded by Deere & Company, Garmin International, Inc. and Trimble Inc. The Alliance recognizes the ever increasing importance of Global Positioning System (GPS) and other Global Navigation Satellite System (GNSS) technologies to the global economy and infrastructure and is firmly committed to furthering GPS innovation, creativity and entrepreneurship. The GPS Innovation Alliance seeks to protect, promote and enhance the use of GPS. For more information, please visit www.gpsalliance.org.
