## **Statement on the Confirmation of Tom Wheeler as FCC Chairman**

WASHINGTON – The GPS Innovation Alliance issued the following statement in response to the Senate's confirmation of Tom Wheeler to be chairman of the Federal Communications Commission (FCC):

“The GPS Innovation Alliance – launched early this year to ensure constructive, robust dialog between GPS users, GPS manufacturers, and policymakers on critical issues affecting GPS – looks forward to working with Chairman Wheeler. Few technologies are more ubiquitous in everyday life than GPS. Chairman Wheeler has a long and deep involvement in the communications industry and the GPS Innovation Alliance is pleased that he will be able to bring those experiences to the ongoing efforts to ensure the continued success and growth of the GPS industry. “
